Barnham Cross

You said, we did

The story so far

We've been in touch on and off now for the last 6 years to understand what life is like at Barnham Cross. That includes understanding what you enjoy about where you live, what are the problems when living on the estate, and what you would like to see change.

We've heard from you that you value the strong community spirit and the nature nearby but would like to see improvements to parking, more things for young people to do, and less antisocial behaviour and fly tipping.

All of the things you have said were brought together to create a vision for Barnham Cross in 2022, that was refreshed in 2025. This vision that was created with you is the foundation of what we are looking at across the estate and the things that are trying to be achieved.

The vision: We want Barnham Cross to...

Have safer pedestrian routes

Be a place that is clean and cared for by all

Have a choice of good quality homes

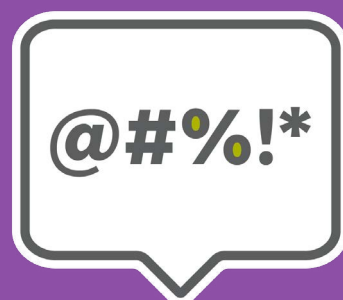

Offer better car parking

Be a place that has access to and makes the most of the natural environment

Be free of anti-social behaviour

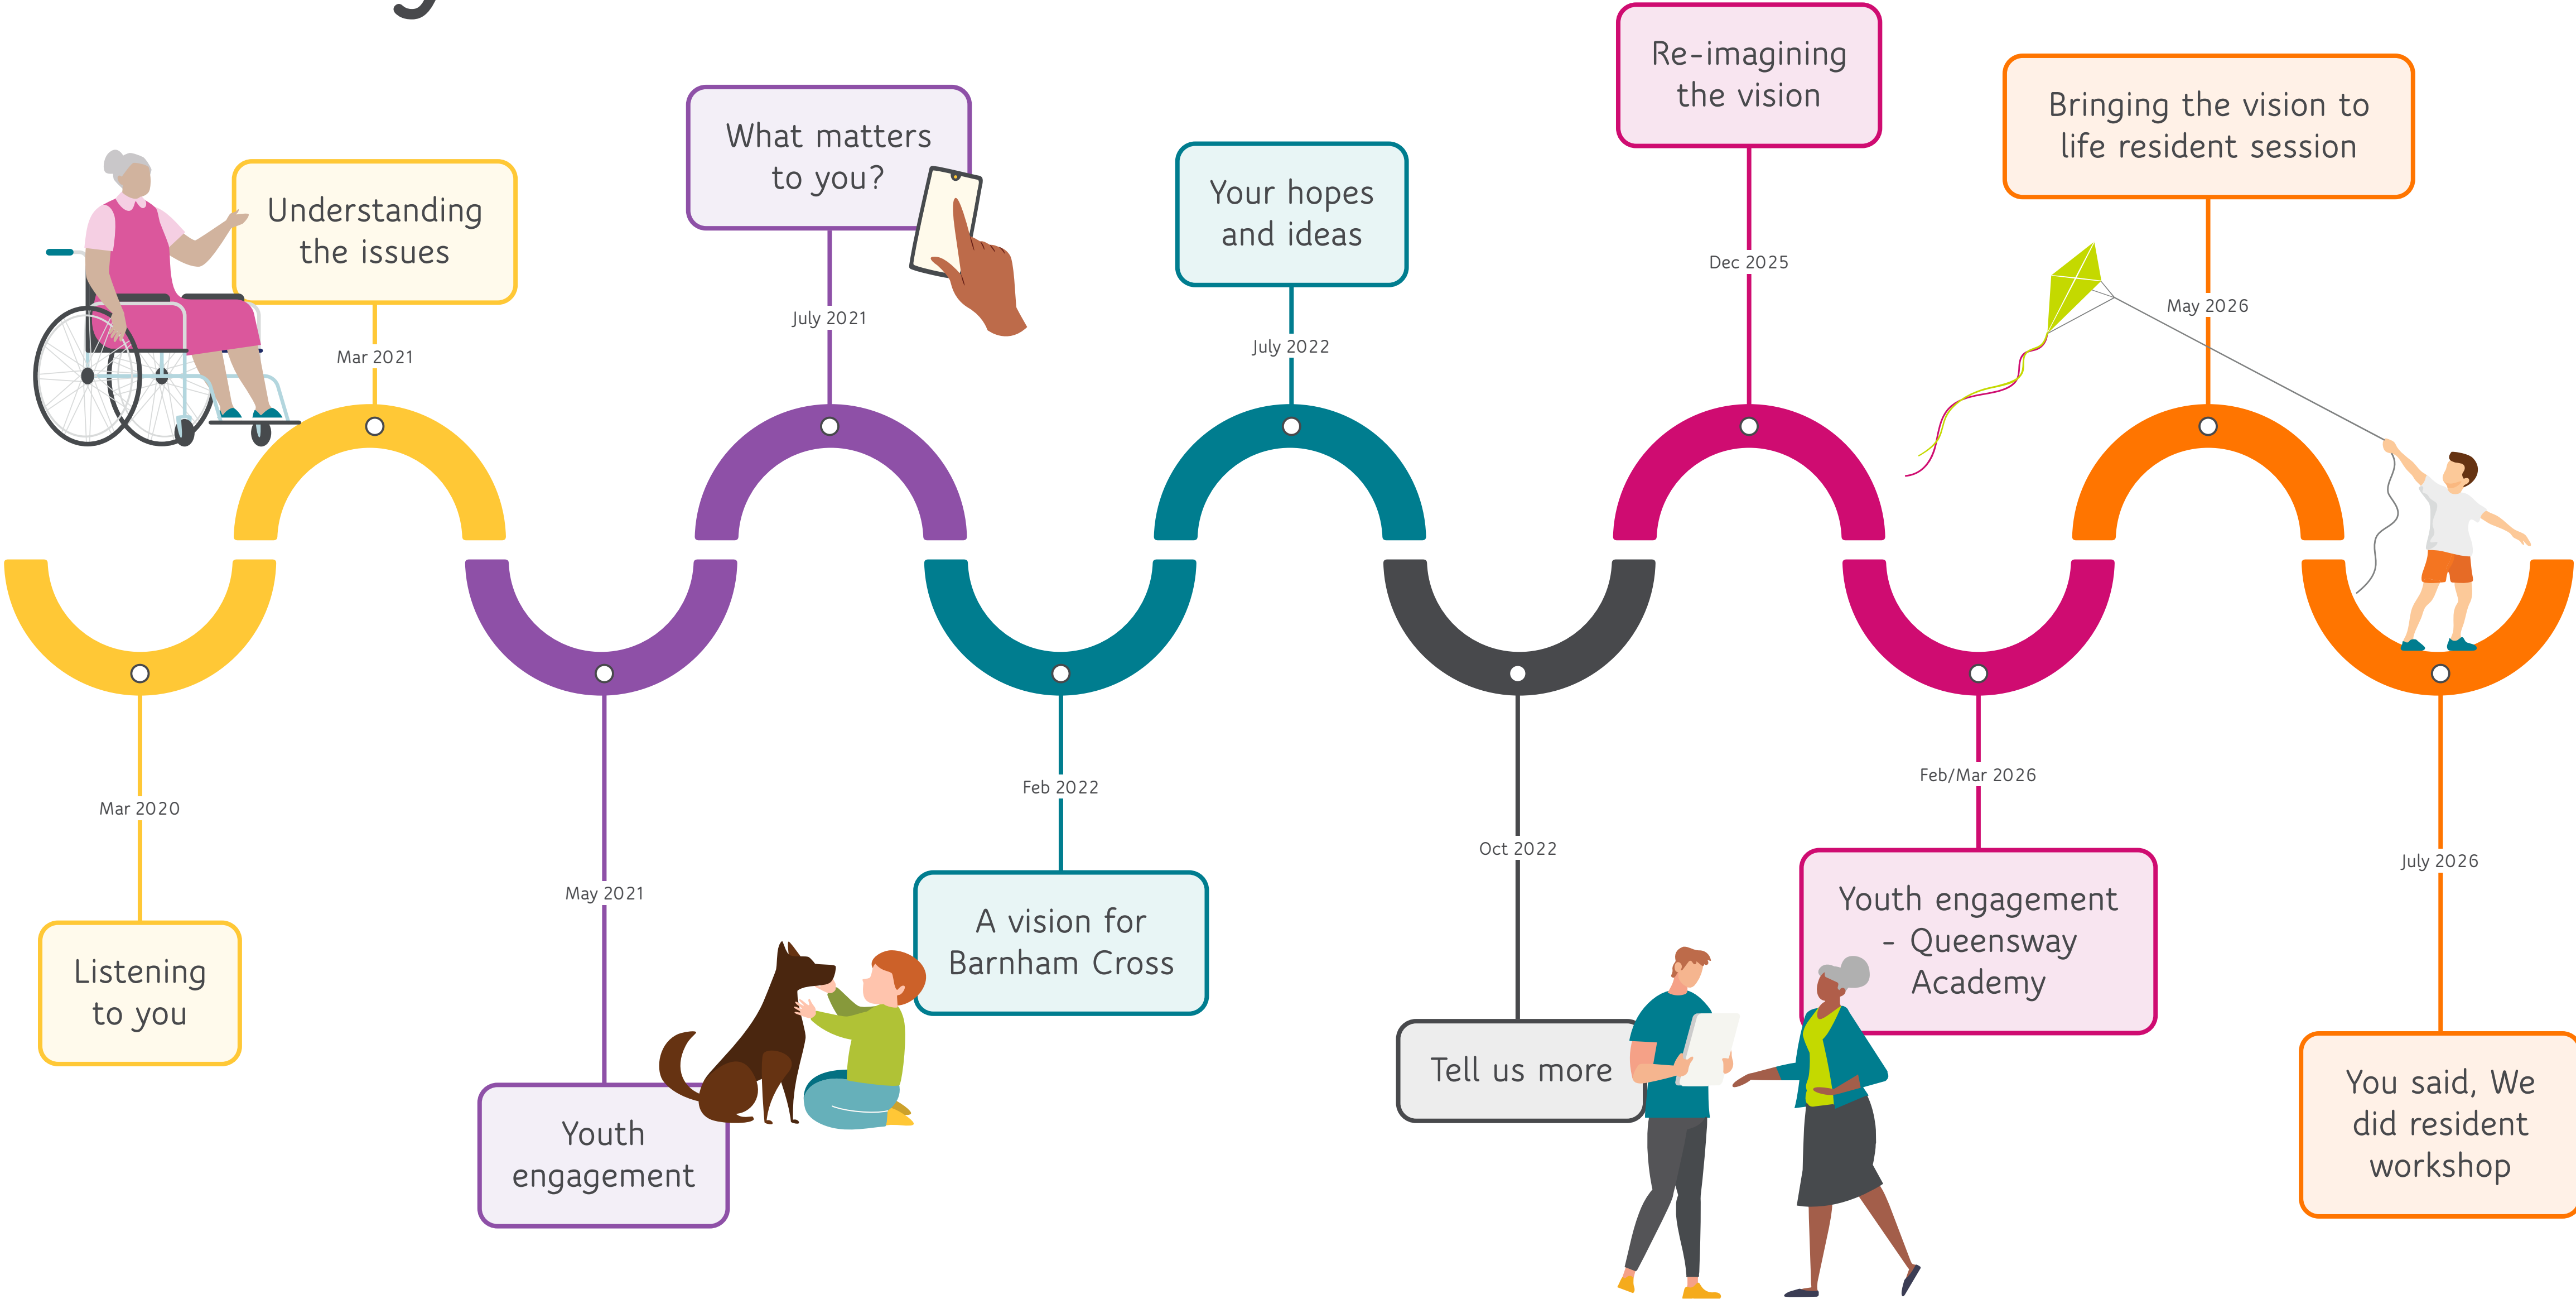

Provide more and better facilities for young people

Continue to be a place that people are proud of

The story so far...

A plan for Barnham Cross

You said: the estate should be one-way traffic

We have: designed a new one-way lane

You said: cars drive too fast around the estate and want to see traffic calming methods

We have: proposed speed ramps throughout

You said: you want the green spaces around the estate to be protected

We have: focused the build of new homes on the existing garage sites

You said: you wanted to see more play spaces

We have: proposed areas for play that we want you to have a say on

You said: you want less cars parking on the pavements and grass

We have: proposed three new parking courts and additional parking areas

You said: you'd like improvements to the green spaces such as seating and planting

We have: picked areas to improve the landscape, and want to hear more from you on how you'd like this to happen

You said: new homes should be affordable to run and have gardens

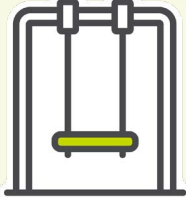

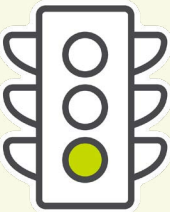

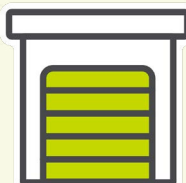

We have: included a back garden in every new home and are looking at cost-saving and environmentally friendly options such as solar panels

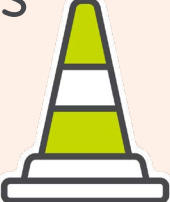

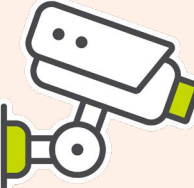

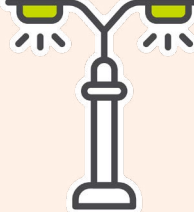

Feedback

At the workshop, we heard from nearly 50 of you about your feedback on the plan.
You can see what you told us below:

What have we done well?

good gateway spaces and routes to common 	more parking 	love the idea of more play 	green spaces 
it's good you're building new houses 	speed bumps and play areas 	all looks good 	informed the residents of the proposals 
different traffic calming measures 	one way system 	building on old garage sites is a useful use of eyesores 	reducing parking on grassed areas 

What could be improved?

make strict parking preventions such as double yellow lines and bollards in areas that shouldn't be parked on 	
want to see the existing estate better maintained 	not enough parking at the moment 
concern about new homes reducing privacy of others 	ensure emergency services can access all areas 
better street lighting 	keep garages 

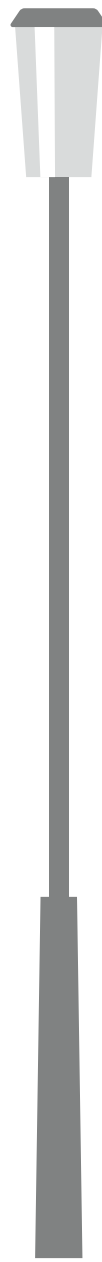

A stylized illustration of a woman and a young girl walking together. The woman, on the right, has brown hair in a bun and wears a light blue, long-sleeved, knee-length dress over orange leggings, with white socks and grey shoes. She carries a tan bag over her shoulder and holds the girl's hand. The girl, on the left, has brown hair in two buns and wears a yellow short-sleeved shirt with a white star, a dark green skirt, and yellow shoes. They are walking on a light beige background.

The grid displays 18 different playground scenes:

- Top row (left to right):
 - 5: A path made of large, flat stones in a wooded area.
 - 9: A child climbing a large log structure in a forest.
 - 8: A circular stone fire pit in a wooded area.
 - 6: A wooden play structure with a slide in a wooded area.
 - 4: A child sliding down a large wooden slide.
 - 8: A child climbing a large log structure.
 - 2: A child climbing a large wooden structure in a wooded area.
 - 4: A child climbing a large wooden structure in a wooded area.
 - 4: A child climbing a large wooden structure in a wooded area.
- Bottom row (left to right):
 - 8: A child riding a bicycle on a paved path.
 - 3: A child playing on a wooden play structure in a park.
 - 7: A child playing on a wooden play structure in a park.
 - 2: A child playing on a wooden play structure in a park.
 - 2: A child playing on a wooden play structure in a park.
 - 5: A child playing on a wooden play structure in a park.
 - 3: A child playing on a wooden play structure in a park.
 - 2: A child playing on a wooden play structure in a park.
 - 5: A child playing on a wooden play structure in a park.

Play comments

We asked for your feedback on what types of play you'd like to see. You also left some comments:

More fun things to do

Metal so it doesn't get burnt

Climbing nets and mesh fairy lights in trees

Ball park

Play for different ages

More safe play spaces

Fenced in areas

Play/seating areas should have shade

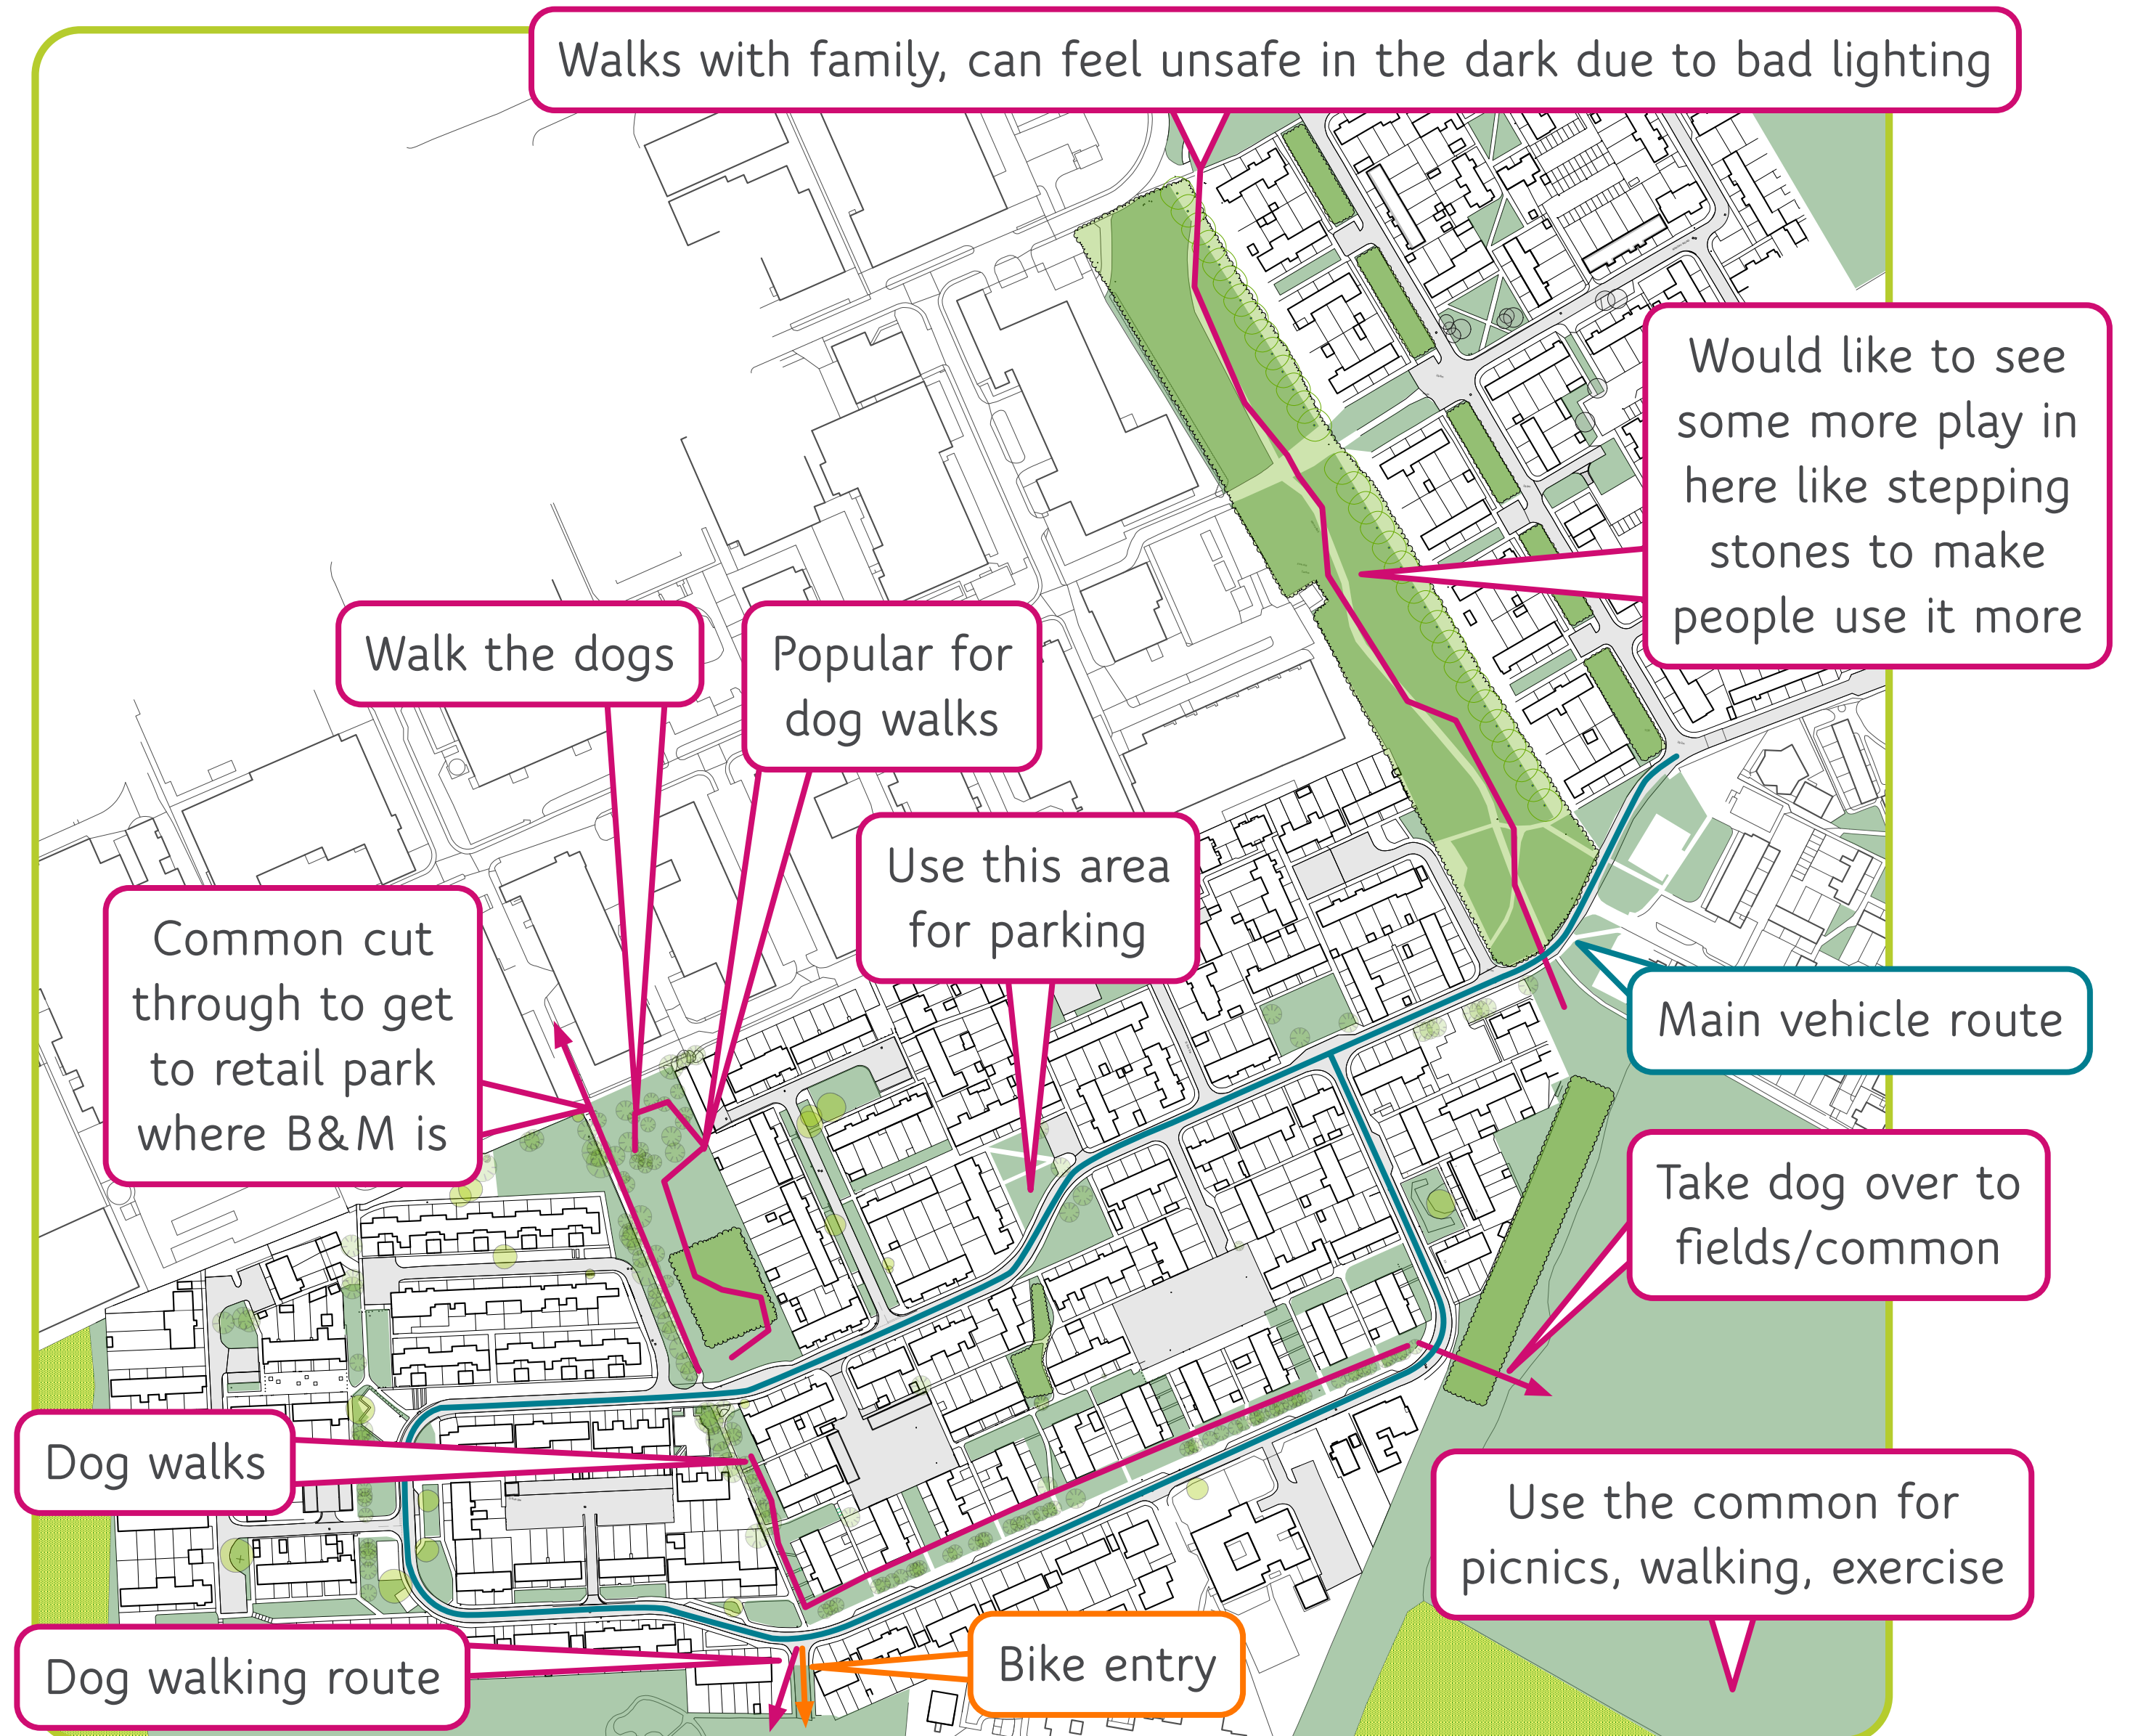

Workout equipment

Accessible for everyone

Colourful

Movement and public spaces

We asked you to let us know how you travel around the estate. The map shows these routes:

Anything else?

Alongside understanding what things you like and dislike, we asked...Is there anything else you'd like to tell us?

It's good

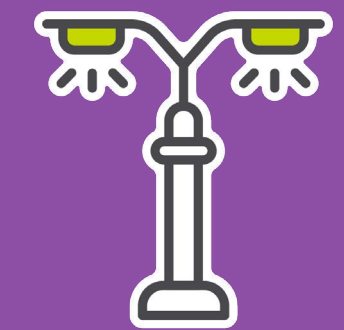

Garages are currently
in poor condition

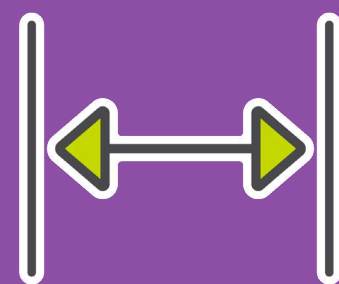

Improve current parking
for current houses

More lighting

Wider pathways

More bins and dog
waste bins

Bikes are a problem
across the estate

More road signs to
direct to homes

What's next

Thank you all for your continued feedback. We're listening and want to know how else we can support you.

We're continuing to work with local people, statutory consultees and specialist consultants to shape a plan for Barnham Cross that works well, both in practical terms and for the community.

There's lots of work going in to make sure that this plan works, and we're looking forward to sharing this soon.

In the meantime, we'll let you know when we are in the area for you to drop in and ask us any questions, or you can get in touch with us via our contact details on the back.

If you have any questions, please get in touch:
